

Hindus ignore the cold

ALLAHABAD, India (AP) — An estimated 9 million pilgrims braved a cold rain today to bathe in the Ganges River during the climax of Hinduism's holiest ritual bathing festival.

By midnight Tuesday, both banks of the Ganges and Jumna rivers were lined with pilgrims. They trekked through the mud to the meeting point of the two rivers for the brief dip they believe will help them earn salvation.

The 43-day festival, called the Kumbh Mela, is held once every 12 years. Some Hindu holy men say this year's festival, which began Jan. 5, is under the best astrological influences of any in 144 years, and today was considered the most auspicious bathing day.

The huge crowd streamed in waves across the 3,000-acre shantytown built for the festival.

When a procession of naked holy men called sadhus made its way to the river at dawn, the crowd grew tense. A similar procession at the 1954 Kumbh Mela touched off a stampede, and hundreds were trampled to death. But tight crowd controls were enforced this time.

The rain, which began shortly after midnight, was judged very auspicious, a "holy shower," by 26-year-old Joshi Gopesh.

"It will help the harvest," he said. "These people are mostly farmers, so they will be happy."

At midmorning, officials said 9 million pilgrims were in the area and 4 million had bathed.

Hindus frequently pilgrimage to several holy areas along the Ganges to bathe, but no site is considered as holy as the confluence with the Jumna just east of Allahabad. According to Hindu mythology, the gods were struggling over a pitcher of nectar, and some of it spilled here. Kumbh Mela mean pitcher of nectar.

It's warm up there in Alaska

ANCHORAGE, Alaska (AP) — The Anchorage Hockey Association had to cancel its games Tuesday — ice on the outdoor rinks melted.

While many of the lower 48 states shiver in a deep freeze, Alaskans are swapping parkas and mukluks for sweaters and street shoes and basking in one of the warmest winters on record.

Instead of skidding on icy sidewalks, urban Alaskans are jumping puddles or dodging splashes from passing vehicles.

Temperatures in Anchorage, the state's largest city, were running 20 degrees above normal. The highs here on Sunday and Monday, both in the low 40s, wiped out records set 43 years ago.

On Tuesday, only two Alaskan stations reported readings in the minus range — Barrow at -4 and Northway at -12.

It's like a summer vacation for many of the 14,000 Air Force, Navy, Army, Marine and National Guard personnel here to take part in "Jack Frost 1977," an annual joint military cold weather combat exercise.

"Hey, guys, it's warmer here than on the East Coast," said one Leatherneck reserve arriving from Albany, N.Y., bundled in heavy clothing designed to ward off the biting subarctic temperatures he expected. The low temperature at Albany, home of Company A of the 1st Battalion of the 25th Marines, was -6 on Tuesday.

weather

Travelers advisory tonight. Snow likely, ending during the night, with 2 to 4 inches of new snow expected. Partly cloudy Thursday. Low tonight 10 to 15. High Thursday in the 20s. Winds northwest 10 to 20 and gusty. Probabilities of precipitation 50 per cent tonight. The temperature today was 1 at 7 a.m. and 11 at noon. Low Tuesday was -16; high 11.

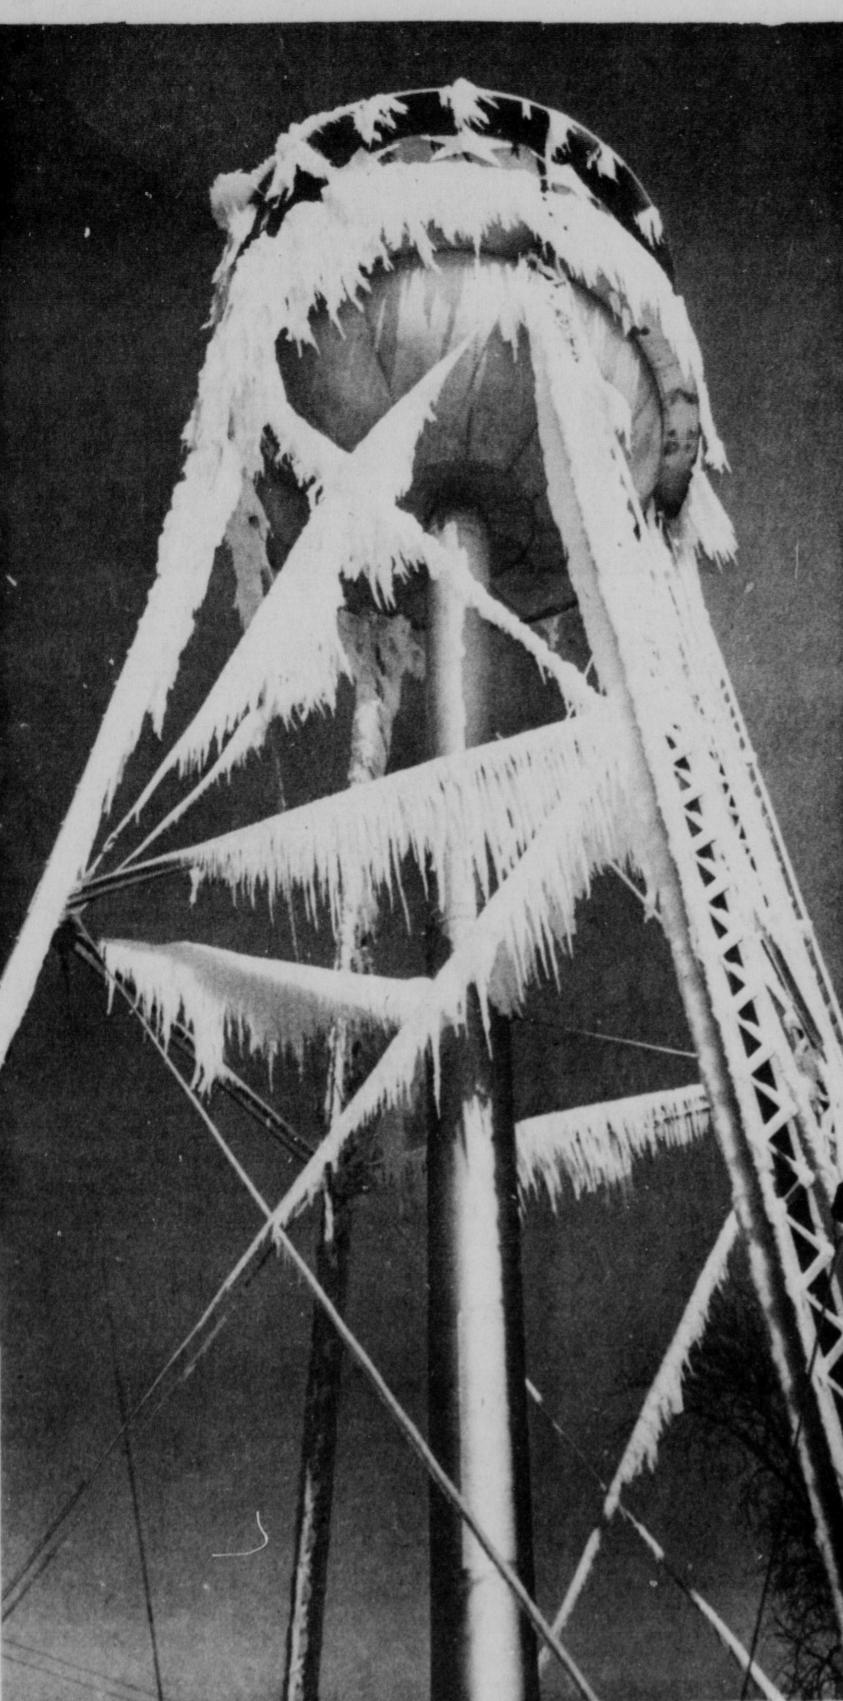

Lake of the Ozarks stage: 48.3; 11.7 feet below full reservoir. Sunset today will be at 5:20 p.m.; sunrise Thursday at 7:28 a.m.

Many homes without heat

Winter evacuations

BY THE ASSOCIATED PRESS

Subzero temperatures and natural gas shortages in the East, Midwest and South forced hundreds, thousands of school children and workers to stay home today. Businesses were closed in many areas, and officials in several states predicted tens of thousands more layoffs.

Heaters went out in 1,800 southern West Virginia homes early today when pressure in natural gas lines fell to zero and rescue operations were begun in snow and zero-degree weather.

"We are evacuating people already," said a spokesman for the Raleigh County sheriff's office at Beckley. "Our deputies are out helping to evacuate people to hospitals and schools."

He said the temperature was one below

zero and light snow was falling. "The roads are very slick," he said.

A spokesman for Cabot Corp., the natural gas supplier, said the affected homes are in Shady Spring, Prosperity, Bradley and Maple Fork in Raleigh County, and Beech Run in adjoining Summers County.

It was the second time in three days that pressure was lost in Cabot gas lines. Residents in the Fayetteville area were affected earlier in 16 to 18 below zero weather.

The Cabot spokesman said heavy demand for gas further up the line caused the drop in pressure.

He said gas was turned off to Shady Spring and Beech Run so that pressure could be maintained for Summers County Hospital in Hinton, and gas to all

businesses in Oak Hill was turned off to rebuild gas pressure. Businesses in other areas towns were asked not to open today, and residents were asked to turn thermostats back to 60 degrees.

In Florida this morning, it snowed as far south as Boca Raton, the farthest south that snow has been reported in Florida since the weather bureau began keeping records in the late 1800s.

"It's like the world is ending," joked a housewife in Davie, about five miles west of Fort Lauderdale, where there were light snow flurries.

South Florida radio stations were playing songs such as "Jingle Bells" and "Let It Snow."

Temperatures dropped as low as

(Please see WINTER, Page 4)

Better than the goal

Inflation rate down

WASHINGTON (AP) — Consumer prices rose a moderate four-tenths of one per cent in December, bringing the overall rise in prices in 1976 to 4.8 per cent, the smallest inflation rate in four years, the government reported today.

The annual increase bettered the Ford administration's goal of reducing inflation to a 5 or 6 per cent rate for the year and marked the best record since elaborate government wage-price controls held the rise in consumer prices to 3.4 per cent in 1972.

In 1973, prices rose 8.8 per cent, followed by a 12.2 per cent rate in 1974 and a 7 per cent inflation rate in 1975.

Although the rate of inflation cooled last year, the annual increase was still more than what Americans had become accustomed to during most of the post-

World War II period when prices increased an average of 2 to 3 per cent a year.

A decline of nine-tenths of 1 per cent in grocery prices last year, the first December-to-December drop since 1961, helped slow the inflation rate, the Labor Department said.

In announcing the year-end figures, the department also reported that the purchasing power of the average worker's paycheck increased for the third month in a row, rising two-tenths of 1 per cent.

Over the year, real spendable earnings — take-home pay after reductions for inflation and taxes — were up one-tenth of 1 per cent as a 1.8 per cent increase in real gross average weekly earnings more than offset a rise in taxes, the government said.

Retail prices for food, nonfood com-

modities and services all rose less than in 1975.

Declines for beef, pork and poultry led to the decline in grocery prices last year. In 1975, these prices rose 6.2 per cent. Over-all food prices, including the cost of restaurant meals, increased six-tenths of 1 per cent in 1976, down dramatically from 6.5 per cent in the previous year.

Nonfood commodities rose 5.1 per cent in 1976, compared with 6.2 per cent in 1975. Smaller increases for gasoline, fuel oil, household durables and new cars contributed to the slowdown.

In December, the consumer price index stood at 174.3, meaning that it cost \$174.30 to buy the same marketbasket of goods and services that cost \$100 in the 1967 base period.

Anti-price revolts cause 8 deaths

CAIRO, Egypt (AP) — Egyptian President Anwar Sadat revoked price increases on food, gas and cigarettes today after riots in which witnesses said police fire killed eight persons.

The Egyptian government ordered a 14-hour curfew for Cairo, Alexandria and Suez City at the southern end of the Suez Canal as rioting and clashes raged for the second day in protest against price increases. Public transport came to a standstill, shops and factories were closed and government employees stayed home.

Cairo radio said the curfew would go into effect at 4 p.m. and would last until 6 a.m. Thursday. It was Egypt's first curfew since the 1952 revolution that overthrew the monarchy.

An announcement said the government acted "at the request of Prime Minister Mamoud Salem and the approval of President Anwar Sadat to suspend the

latest price regulations."

It added that Salem's ruling Center party, which overwhelmingly dominates the 360-member parliament with 305 seats, would meet in the afternoon to review events. Parliament's economic committee will meet Thursday for the same purpose.

The Interior Ministry charged that Communists stirred up unrest among the workers in the Helwan iron and steel works and students at Ain Shams University.

There were riots Tuesday night also in Alexandria, the port city 126 miles to the north, and 43 policemen were reported injured. Riots were also reported there and in Suez City today, despite police reinforcements.

Health resources topic

By RON JENNINGS
Staff Writer

The first step toward coordination of available medical resources to better serve the nearly one million residents in 60 Missouri counties was taken Tuesday afternoon at State Fair Community College.

Meeting in the Charles E. Yeater Learning Center were 10 members of two advisory groups of the Area II Health Systems Agency Inc. This agency, organized and approved last year by the Department of Health, Education and Welfare, replaces in its 60 counties the former federal Hill-Burton program, regional medical program and Comprehensive Health Planning Act. Four other similar regions have been formed to encompass the remaining counties and metropolitan centers of the state.

Within the Area II Agency, six advisory groups have been formed to assist in the development of a five-year plan for improved health care in the 60 Missouri counties, including Pettis. The two groups that met Tuesday are concerned with health maintenance and personal health care support services. The four other categories of concern, which will be examined by four other advisory

groups, are community health promotion, protection, prevention and detection services, diagnostic and treatment services, habilitation and rehabilitation services and health system enabling services.

The primary purpose of the Area II agency, it was explained, "is to reorganize the various entities that deal with health so that each community in the agency has an opportunity to be actively involved in developing health programs."

It was noted at the outset of the

Chamber reacts to bad check policy

Because of some disgruntlement with Prosecuting Attorney Mark Kempton's recently-announced revised bad check policy, the Sedalia Chamber of Commerce board of directors Tuesday voted to invite him and Assistant Prosecuting Attorney J. William Turley to a special breakfast meeting in which Chamber members can question them regarding the policy.

It is also hoped that Kempton can further explain his policy and why it was formulated. No date or location for the breakfast was set.

The decision to hold the special breakfast meeting was made after Chamber retail affairs committee chair-

man Jim Edwards mentioned that he has received several complaints from merchants. Other Chamber members indicated they, too, have received critical comments regarding the policy.

Kempton last week announced the new policy to facilitate "the efficient prosecution of current check offenders" and to aid in the "reduction of future check offenses."

Among the offenses that will not be prosecuted are cases in which the check is drawn on an out-of-state bank, cases involving two-party checks and cases in which the check does not bear the check.

(Please See CHAMBER, Page 4)

Bell facing a fight

WASHINGTON (AP) — Griffin B. Bell's opponents challenged his civil rights record today, and one black leader appealed to President-elect Carter to withdraw his nomination for attorney general.

But the sixth day of Senate Judiciary Committee hearings on Bell's nomination seemed likely to be only a delay in the process of probable confirmation.

The Senate Commerce Committee, meanwhile, was expected to endorse without significant dissent the nominations of former Rep. Brock Adams as secretary of transportation and Juanita

Morris Kreps as secretary of commerce. Aaron Henry, president of the Mississippi Conference of the National Association for the Advancement of Colored People, told the Judiciary Committee he sees Bell as a man "who will do as little as he can within the law for progress in human relations."

Henry said "we always knew we didn't have Judge Bell's vote" when the Cabinet nominee was serving as a U.S. appeals court judge considering school desegregation and voting rights cases.

"By the fruits Judge Bell has produced, I'd be very hesitant about accepting his promises," Henry said.

*She was up to it*

Nineteen-year-old Rebecca Vigil, who had never fired a gun in her life, is shown shortly after killing two robbers who held up her boyfriend. The bandits invaded a service station and attacked Jimmy Hess, 19, the attendant, when he failed to produce enough money to satisfy them. Miss Vigil, following shouted instructions from Hess, grabbed a pistol hidden in the station and fired it. One bandit died. She picked up another pistol dropped during the fight and shot and killed the other robber. Stockton, Calif., police said she would not be charged with a crime because the slayings were in self-defense.

JEFFERSON CITY, Mo. (AP) — The Missouri Farm Bureau's Shoppers' Guide began pricing coffee in its weekly marketbasket report released Monday. The state average for a pound of coffee was \$2.87.

Prices of beef and pork were mixed. Although blade and arm roasts both went up a nickel to 86 cents and \$1.12-a-pound, respectively, other beef cuts dropped from four cents to a dime.

Rib steak led the way, dropping 10 cents to \$1.55 per pound; T-bone steak was down nine cents to \$1.95 a pound as was round steak at \$1.43 a pound. Ground beef dropped four cents to 73 cents a pound.

Pork prices, which rose two weeks in a row, were mixed. Pork steak was down seven cents to \$1.07 a pound and the butt portion of ham was also down, three cents to \$1.03 a pound.

Center cut pork chops went up four cents to \$1.73 a pound; pork blade roast was up a penny to 99 cents a pound, and the shank of ham also rose two cents to 95 cents a pound.

Whole fryers and cut-up chickens each increased a penny to 48 cents and 56 cents a pound, respectively. A 10-pound bag of red potatoes increased eight cents to \$1.18.

A gallon of whole milk increased two cents to \$1.62 and

2 per cent milk was up three cents to \$1.55.

Polly's pointers

Vinegar presses crease in hem

By POLLY CRAMER

DEAR READERS — Perhaps there is no Pointer that I have passed on to others more times than the following one that has proved invaluable to me and my friends and is especially timely now when some of us are having to let down our skirt hems a bit.

DEAR POLLY — I think mothers will bless this idea. After a hem is ripped out, sponge over the hem crease with two parts of white vinegar and one part water and then steam press. The crease will press right out. This works on wools as well as cottons. (Polly's note — When using this on synthetic fabrics that I do not want to put the iron on directly, I wring a thin pressing cloth (a piece of old sheet is good) out of the vinegar water solution, put the cloth over the crease and then press with a hot iron, being very sure the iron never touches the fabric. When such lines are very stubborn I have often used straight white vinegar on the cloth.)

DEAR POLLY — Use a lollipop as a tongue depressor when checking a child's sore throat and you will have a more willing patient.

DEAR POLLY — When taking toddlers to the beach take an old playpen along that has had the floor removed. When this frame is placed on the beach, with baby in it, he is in a safe place, within reach and can still play in the sand like the other youngsters.

DEAR POLLY — Always carry some small paper plates in the car. When a child eats an ice cream cone or ice cream bar on a stick I cut a slit in a small paper plate and slip the stick or end of the cone through it. This prevents a lot of spills, spots and stains on their clothing.

DEAR POLLY — Place a clean clothespin in the thumb and each finger of gloves after washing to keep them in good shape as they dry. Use only clean or plastic pins or stains may dry into the glove fabric. (Polly's note — This is super for chamois gloves — mine never looked so good.)

(NEA)

Stop ERA advocates visit General Assembly members

JEFFERSON CITY, Mo. (AP) — Missouri is one of several states targeted for passage of the Equal Rights Amendment and ERA opponents are already gearing up for the battle.

Mrs. James L. Foster, 1616 East Seventh, was among more than 100 members of Stop ERA and other organizations opposed to ratification of the Equal Rights Amendment who braved sub-freezing temperatures Tuesday to express their views to members of the Missouri General Assembly.

The group was greeted in the capitol rotunda by Senator Mary Gant of the 9th District, Senator Richard Webster of the 32nd District, and by several members of the House of Representatives.

Each member of the General Assembly was presented with a pink carnation and a packet of information containing reasons for opposing the ERA.

Ann McGraw, chairwoman of the Stop-ERA organization in Missouri, said she was confident the 1977 session of the Missouri legislature would again defeat the amendment, which calls for equal treatment for all persons regardless of their sex. She said she was particularly confident of support for her position in the state.

She differed with pro-ERA polls, which showed most Missourians favor passage of the amendment, which has failed to pass in three previous legislative sessions.

In all, 38 states must approve the amendment by March, 1979. Indiana became the 35th state to approve the amendment when the legislature approved it Tuesday.

After the demonstration, the "Think Pink" demonstrators visited legislators to lobby against ERA.

meeting adjourned

American Field Service student Alfred Jakobsen, Arsuk, Greenland, presented the program for the Monday meeting of Sorosis at the Heard Memorial Club House.

Jakobsen, who is living with Dr. and Mrs. Elliot Braverman, has been in Sedalia since

Women go from wee budgets to stocks and bonds

By ELLIE GROSSMAN

NEW YORK (NEA) — Men used to say to women, you're not equipped to deal with money. I leave the figures to us, dear.

As you must have noticed, that's changing.

"By 1980, almost half the population of American women will be working," says Myrna Liebowitz, "and they own more than 51 per cent of the securities. They want to control their money now, and learn about it."

Ms. Liebowitz, president of the Women's Stockbrokers Association, is doing her best to help.

A stockbroker for 15 years, member of the firm Herzfeld & Stern, she began giving her seminar called "Everything You Always Wanted to Know About Personal Finances and Were Afraid to Ask," in May, '75, in the New York area, at a cost of approximately \$60 for three evening sessions.

She also addresses women's groups, appears on local television and says, yes, when corporations ask her to conduct a seminar in banking or credit, to "raise the level of those women they want to advance in management."

Swell, you say. We should know why it's vital to leave a will (so you, and not the government, decide where your assets will go) and whether or not to hire an accountant to do your taxes (yes, if you have a lot of deductions).

But stocks and bonds? Surely you jest. Where's the money supposed to come from for that?

Do you know where it's going now, Ms. Liebowitz will repeat? If you're not on a budget, chances are you don't.

"A woman needs budget so she can control what's coming in and going out. First of all, cash disbursements — what you spend on newspapers, transportation, lunches, etc. — should comprise only five or ten per cent. Pay

Green Ridge girl
wins first place

SWEET SPRINGS — Sonia Harrison, daughter of Mr. and Mrs. John Harrison, Green Ridge, took first place over Tom Elder, son of Mr. and Mrs. Larry Elder, Warrensburg, representing LaFayette County, in the 7th District American Legion Oratorical Contest held Sunday at the American Legion Hall here.

Miss Harrison represented Pettis County. She will compete at the zone level at 2 p.m. Feb. 5 in Malta Bend, in a competition with the winners of Districts 3, 4 and 5.

The state competition will be held at 1 p.m. March 5 in Jefferson City.

A 7th District business meeting of the Legion and Legion Auxiliary followed the contest.

Money advice

Women need to do some homework if they're going to invest in the stock market according to Myrna Liebowitz. She suggests reading the newspapers every day because "current events are the most important thing." (NEA)

for everything else by check: clothing, food, etc. At the end of a month, you'll have facts and figures at your disposal and you'll know where your money is going."

Then you can do something about your extravagances. If you're a clotheshorse, start waiting for sales. If you leave your money in the cash register at the A&P, "watch

for specials at different supermarkets and buy house brands when possible. Also, shop after you've eaten so you won't give in to impulse buying, and always bring a list and stick to it."

You can "find" money by bringing your lunch to work or by spending less on pantyhose, and on and on.

Now that you've found it,

you're not ready to invest just yet. There are other considerations. You need money for emergencies, "a base for savings and life insurance if you're married. Money you invest must be money you can afford to lose."

And if you really don't know a stock from a bond, you've got to do some homework. "Take an adult education class at a local college or one that a brokerage firm gives."

Then, to decide where and how you're going to invest, read the newspaper every day because "current events are the most important thing. Through that everything else comes. And read the financial newspapers to get a sense of the economy and how the country is going. When Carter was elected, he said he wants to put his area of growth in our natural energy resources, so you can glean from that that maybe you should investigate natural resources."

Or, "if you're using a good hair preparation or cosmetic or disinfectant, look into that company. See what the growth rate is, if the product has good promotion and display. Check up on the company with a copy of the Standard & Poor's sheet

which you can get from any brokerage firm."

Okay, you're now ready to take a shot — provided you acknowledge the risk. "There is a risk in everything," she says, "but if inflation is six and one-half per cent and you get, say five and one-fourth per cent dividend on a savings account, you're losing one and one-fourth per cent. The whole idea is to keep ahead of inflation so you have more purchasing power."

The time has come to select a stockbroker and you do that first by asking friends for recommendations. "Then," she says, "you should call a few brokers and set up a consultation but always ask if there's a fee involved." Then

decide whether or not you want to consult with the broker who charges one.

"Never choose a broker you don't have a good rapport with or who won't give you direct answers, i.e., why things such and such stock will go up. Or one who makes you feel your questions are too trivial." It's your money, after all.

And when you're all set and you've started to fill your portfolio with natural gas or frozen foods, it won't hurt to do one more thing: pray.

Death Notices

Roy J. Large

VERSAILLES — Roy J. Large, 71, died Tuesday at the Harry S. Truman Veterans Hospital, Columbia.

Born July 15, 1905, in McClothe, Kan., he was the son of the late Emmett and Minnie Large. He married Clara Gladys Ade on Dec. 16, 1950, and she survives of the home.

A member of the V.F.W., he was a retired chief in the Navy, serving in World War II and the Korean conflict.

Other survivors include one step-son, Robert Henderson, Maysville, Mo., and six step-grandchildren.

Funeral services will be held at 1 p.m. Friday at the Kidwell-Garber Funeral Home here with Chaplain O.J. Owens officiating.

Military rites and burial will be in the Versailles Cemetery.

Mrs. Ida E.W. Crole

KANSAS CITY — Mrs. Ida Ethel Weathers Crole, 88, died Tuesday at her home here.

She was born May 18, 1888, in Seward County, Kan., daughter of the late Young Goodwin and Leah Rosella Havens Weathers. She was married to Claude A. Crole on Aug. 8, 1909, who preceded her in death in 1968.

Mrs. Crole lived in the LaMonte, Mo., area for over 50 years before moving to Kansas City. She was a member of the LaMonte Baptist Church, where she served as Sunday school teacher and superintendent, as well as missionary circle member. Mrs. Crole, a former telephone operator, worked as a correspondent of the Oak Point community for The Sedalia Democrat for 17 years.

She was a former member of the Oak Point Extension Club, a former charter member of the Sarah Boone Chapter, Daughters of the American Revolution, Kansas City; she was also a member of the Daughters of the American Revolution Osage Chapter, Sedalia, Mo.

Survivors include two sons, Sylvan C. Crole, Tuscola, Ill.; Earl L. Crole, Arlington, Tex.; three daughters, Miss Lima R. Crole, of the home; Mrs. Phil (Barbara) Bevan, Overland Park, Kan.; Mrs. Pearl (Ethel Lois) Stuart, 1201 State Fair Blvd., Sedalia, Mo.; one brother, Melvin D. Weathers, 3000 Daryl Drive, Sedalia, Mo.; two sisters, Mrs. Mae Marshall, Kansas City; Mrs. Lena J. Boothe, Quincy Apts., Sedalia, Mo.; and six grandchildren.

Funeral services will be held at 10:30 a.m. Thursday at the church with the Rev. Alfred Rodewald officiating.

Burial will be in Fairview Cemetery, Sweet Springs.

Friends may call from 7:30 to 8:30 p.m. Wednesday at the James-Berg Chapel here.

Roy R. Holman

Funeral services for Roy R. Holman, 76, 1018 West Second, who died Tuesday morning, will be held at 1 p.m. Thursday at the Ewing Funeral Home with the Rev. James Allen, assisted by the Rev. Cecil O'Neill, officiating.

Six nephews will serve as pallbearers: Thomas Grimes, Eldon O'Neill, Gerald Holman, Nolan Holman, Carl Holman and Loy Holman.

Burial will be in the Salem Cemetery northeast of Sedalia.

The family will receive friends from 7 to 9 p.m. Wednesday at the funeral home.

Police probe robbery at storage firm

Sedalia police are investigating the theft of \$345 from Mid-State Storage Co., 118 North Lamine. The money was taken during a robbery late Tuesday morning.

The company's comptroller, Mrs. Alma Adams, said two unarmed men entered the firm about 11:57 a.m. and asked to see some storage boxes. When Mrs. Adams, who was alone in the office, asked them to come back later, one of the men reached into the company's opened safe and took the money and checks, she said.

The two men fled north on Lamine on foot, police reported. Mrs. Adams was not injured in the incident.

In other police news:

Three citizens band radios were reported stolen from cars parked near the MFA transportation division, 303 North Park, manager Dennis Long told police.

The radios were taken from cars belonging to Larry Oder, Milan, Mo.; Ernest Billings, Browning, Mo.; and Duane McCullum, Milan, Mo., all employees of MFA. The thefts reportedly occurred sometime between 5 p.m. Monday and 3:53 p.m. Tuesday, Long said.

Thieves broke in through vent windows to gain entry in two of the thefts, while a rock was used to break the driver's front window in the third theft, police reported.

No value was placed on the radios.

Houstonia fire destroys trailer

HOUSTONIA — A fire of undetermined origin destroyed a two-bedroom mobile home owned by Mr. and Mrs. Jeff Bales, about two miles south of here at 2 p.m. Tuesday.

The Bales couple was not injured in the fire. However, all of their possessions were destroyed in the blaze. An effort to secure clothes and other items for the couple is being headed by Seaton Hall, Sweet Springs.

Valiant effort

A Sedalia firefighter shoots a lone stream of water as fire bursts through the roof of the Linda Taylor home, 1423 South Osage, Tuesday night. The house was

destroyed by the fire with no injuries being reported. Firemen at first thought they had the blaze under control until the attic and roof caught fire.

(Democrat-Capital Photo by Bill Zieres)

Second case of measles confirmed

A second case of rubella measles, suffered in late December by a woman in her late teens or early 20's, has been confirmed by the State Division of Health, local physician Dr. Robert Snowe said Wednesday.

The woman has now recovered.

The woman, whose age and name Snowe declined to reveal, had been in brief contact with a younger local girl who had the measles in early December. This young girl, in turn, had been in contact with relatives in Laclede County, where measles reached an epidemic stage late last fall.

After the first local measles case was identified, Pettis County Health Nurses Mrs. Diane Pilant and Mrs. Mary Jo Bellmer began a program in which all county school students received slips to fill out to indicate if they had been immunized for rubella and rubella measles.

The county health nurses are now starting their annual visitation program into Pettis County schools not served by school nurses. The nurses review all student immunization records on file at the schools. If necessary, they then report to parents that their children need certain immunizations. If parental approval is secured, the immunizations are given in school by the nurses. The nurses also cooperate with school nurses, Mrs. Bellmer said.

Bad check charges will also not be filed if the check-writer has not been "properly" notified of his error through certified mail and if the store clerk who originally accepted the check did not initial or otherwise place identification on the check.

A radio broadcast Wednesday morning quoted Kempton as saying he did not know if he personally will attend the breakfast. However, he assured that Turley, his assistant who originally issued the policy statement, will be at the affair to answer questions and explain the policy.

The Democratic-Capital's attempts to confirm this failed when Kempton's secretary said he was "unavailable" for comment on the situation and that additional attempts to contact Kempton would be useless.

In other business, the board voted to sponsor a parade and hold its second annual fund-raising barbecue on May 10, the day before the Sedalia Jaycee's Rodeo and "Cattle Drive Days" observance which begins May 11. The Professional Rodeo Cowboy's Association (PRCA) rodeo will be held in front of the Missouri State Fair grandstand May 11-14. The board's decision to hold the barbecue was made pending the availability of the State Fair Agriculture Building. The dinner will be held prior to a grandstand concert later that night by Leroy Van Dyke. Van Dyke's back-up musical group will entertain at the barbecue.

The board also agreed to encourage merchants to hold special promotions in connection with the Cattle Drive Days

Fire destroys Sedalia house

A fire thought to be under control at one point, destroyed the home of Linda Taylor, 1423 South Osage, Tuesday night.

Early in the evening the fire, of undetermined origin, gutted the kitchen and dining room of the house. A dog belonging to the Taylor woman died of smoke inhalation in the initial blaze.

Fire fighters had thought the fire was under control and were preparing to leave the scene, when smoke poured out of the house and flames shot through the roof. Within minutes, according to witnesses, the fire had engulfed the house. All fire fighters were outside the structure when flames appeared again.

Fire Chief Willis Jabas speculated that the fire may have been hidden in the attic by a false roof and not been extinguished entirely.

Assistant Chief Kenneth Sublett said it is possible that two gas floor furnaces may have filled the attic with gas, causing the sudden eruption.

Jabas said damage to the structure was total and set the value at several thousand dollars.

Copped cup

The America's Cup, originally called the Hundred Guinea Cup, was offered by the Royal Yacht Squadron of Great Britain for a race around the Isle of Wight. The cup was won by the "America", a 100-foot schooner from New York, but was donated in 1857 for a perpetual international challenge competition.

writer's address and at least two forms of identification.

Bad check charges will also not be filed if the check-writer has not been "properly" notified of his error through certified mail and if the store clerk who originally accepted the check did not initial or otherwise place identification on the check.

A radio broadcast Wednesday morning quoted Kempton as saying he did not know if he personally will attend the breakfast. However, he assured that Turley, his assistant who originally issued the policy statement, will be at the affair to answer questions and explain the policy.

The Democratic-Capital's attempts to confirm this failed when Kempton's secretary said he was "unavailable" for comment on the situation and that additional attempts to contact Kempton would be useless.

In other business, the board voted to sponsor a parade and hold its second annual fund-raising barbecue on May 10, the day before the Sedalia Jaycee's Rodeo and "Cattle Drive Days" observance which begins May 11. The Professional Rodeo Cowboy's Association (PRCA) rodeo will be held in front of the Missouri State Fair grandstand May 11-14. The board's decision to hold the barbecue was made pending the availability of the State Fair Agriculture Building. The dinner will be held prior to a grandstand concert later that night by Leroy Van Dyke. Van Dyke's back-up musical group will entertain at the barbecue.

The board also agreed to encourage

boards members made their various rodeo-related decisions after listening to Jaycee representatives Dave Wiedeman and Mike Swain.

Swain noted that according to PRCA information, retail sales increased 50 percent in cities like Sidney, Iowa, where a large rodeo is held annually. The Jaycees, he added, hope to realize a profit of between \$10-\$15,000, half of which will be distributed among the Virginia Flower Child Development and Rehabilitation Center, the Sedalia Boys Club, the local junior league sports program and State Fair Community College rodeo team scholarships.

The board also granted another Jaycee request by agreeing to incorporate the annual Jaycee Distinguished Service Awards ceremonies into the annual Chamber banquet. Up until now, the two events have always been held separately. The Jaycees will honor an outstanding young man, woman, farmer, law enforcement officer and educator. The Chamber, at its annual banquet, also honors a local resident by awarding its outstanding citizen award.

The names of 14 nominees to fill seven upcoming vacancies on the board of directors also were announced Tuesday. The seven current board members whose terms will expire in February are all candidates for re-election. They are Bill Mills, Mary Jane Wilson, John Ellison, Bill Jarrett, Walter Savio, Ken Romines and Jim Lewis. The seven additional nominees are Ken Hartung, Jim Reed Jr., Kip Salmon, Bob Woolery, Bob Schulz, Mike Hurley and Don Weller.

Balloons will be sent out to Chamber members soon and are due back Feb. 7.

Thursday hearing time is set for use of city park

The first of three public hearings by the Sedalia Parks and Recreation Department concerning the future development of its new park will be held at 7:30 p.m. Thursday in Convention Hall.

The park site is located at the junction of 24th Street, Grand Avenue and Clinton Road.

Park department director Roscoe Righter said Wednesday he plans to present "some design possibilities, lists of needed facilities...and methods of financing." A time table for development will also be discussed.

The meeting is being held, Righter explained, because "we also need to receive input from the citizens of their desires and needs concerning facilities in the new park. We encourage everyone interested to attend the meeting and to bring their ideas."

Residents urged to seek help when pipes freeze over

Many Sedilians are finding that frozen water pipes are a natural by-product of a prolonged cold spell such as that experienced in the Sedalia area. However, how to cope with the problem is another matter.

In most instances, it has been reported, freezing occurs between the water meter and the point where pipes enter a home. Homeowners have been urged to contact a welding firm or other experts to deal with frozen pipes, rather than undertake the task themselves.

Besides welders, it was recommended that the local water department be notified if pipes freeze. Suggestions for resolving the problem may be obtained in this manner, it was indicated by one local welder. Attempts by homeowners to thaw pipes themselves involves a greater risk of fire, it was reported.

Health

(Continued from Page One)

degrees. Eight of these county clusters, including Pettis, Johnson and Lafayette in the Show Me Regional Planning Commission, have in turn completed health plans outlining the needs of their areas.

After the orientation session Tuesday, which also covered additional details of the Area II agency administrative and governing structure, the group discussed briefly specific aspects of their two areas of concern — health maintenance and personal health care support services.

Maintenance, it was explained, covers services to treat the afflicted outside the realm of hospitals. Such facilities include skilled at-home nursing care, intermediate nursing care, nursing home treatment and adult day-care services. Support services includes pharmacy services, social work agencies (such as Family Service offices) and medical records.

In working toward the final goal of having a specific health systems proposal submitted and approved by HEW officials by June, 1978, the advisory group will work in conjunction with the agency's planning committee, governing body and professional staff.

**Near the end**

The 633-foot Liberian tanker Irenes Challenger buckled and its halves separated early this week 104 miles southeast of Midway Island. Twenty-eight crewmen were rescued by the Japanese freighter Pacific Arrow. The Pacific Arrow and the Norwegian

Rona River were searching for three remaining crewmen as late as Tuesday. They were last seen on the bridge of this ship. The Irenes Challenger was carrying 100,000 barrels of light crude oil. A small oil slick was sighted when this picture was taken.

(UPI)

Sales level off at \$1 million

By JOHN CUNNIFFF
AP Business Analyst

NEW YORK (AP) — Glen Johnson had seven newspaper, television and radio interviews in Miami, Fla. on Monday January 10.

That was a particularly busy day. On Tuesday he gave only five interviews, on Wednesday four, Thursday just two, and on Friday three. All were in the Miami-Fort Lauderdale-Palm Beach area.

It was just the beginning. Over a 10-day period Johnson scheduled 40 interviews, mostly on television, which would bring him also to St. Louis, Chicago, Philadelphia, Boston and to his Pittsburgh office for a three-hour break.

Johnson might seem like the hottest talent on the talk-show circuit, but he is not in show business; he is president of Federated Tax-Free Income Fund, which assembles a portfolio of bonds and then offers the public shares in it.

Since its inception 3½ months ago, Federated has sold more than \$26 million of shares to investors.

Each day, on average, a thousand people call on Federated's 18 toll-free lines seeking information on the fund. Many buy. "Our sales have plateaued at \$1 million a day," said Johnson, who is president of four funds in all with assets close to \$600 million.

"I love to come to work in the morning," said the 47-year-old dynamo, who once ran the U.S. Savings Bond Division and who has been running in his present role since that day in October when President Ford signed the Tax Reform Act of 1976. Attached to that bill was an amendment

permitting mutual funds to "invest in tax-free municipal bonds and pass through to their shareholders (the) tax exempt status of the interest earned on those bonds."

"Thirty minutes after the President signed the bill we were in business," said Johnson. Some others were ready at almost the same time, and now there are 15 funds in operation and 18 more ready for clearance.

In this short time the new funds, heavily promoted as taxfree, have sold to the public close to \$600 million in shares, a figure Johnson estimates will reach \$4 billion this year.

Amazing about this record is that the product, municipal bonds on which the federal government seeks no income tax, have been around for years.

Before the President signed the bill last October, individuals could on their own buy municipal bonds, and they still can, although usually only in units of \$1,000 up and often in minimum units of \$5,000.

At such prices the market was limited. It was limited for another reason too: it was generally felt that only the rich, in the higher tax brackets, benefitted from tax exemption.

That attitude has changed. Inflation has pushed many people into the 30 per cent bracket, and now the advertisements for the funds suggest the tax-free factor should be of interest to people of almost every income.

NEW KIMBALL PIANO
37" WHITNEY SPINET
Regular \$1195.00 NOW 799.50
Free Bench, Tuning & Delivery
Ask about our rental purchase plan.
IKEMARTIN MUSIC CO.

The funds make it easy to buy. After an initial investment of \$1,000, some funds permit additional shares to be purchased in units of \$100. And some permit you to redeem shares as easily as writing a check.

For the single person having taxable income of \$14,000 — a 31 per cent tax bracket — the advertisements maintain that a tax-free return of 5 per cent is equivalent to a 7.25 per cent return on which a tax would be levied.

In addition, the ads relate, you enjoy diversification among many issues rather than depending on the results of just one or two. You benefit from "full-time professional management" too.

It all seems so easy, so convenient, so profitable, and it

Lawrence E. Lamb, M.D.

Surgery on ulcer creates problems

Dear Dr. Lamb — I am 50 years old and seven years ago I had an operation for a duodenal ulcer. The surgeon inserted a plastic tube to act as the stomach outlet and removed part of the intestine.

Since the operation, when I eat anything that has sugar in it an hour later I become very sleepy. My heart thumps like a bongo drum and I shake all over. My skin feels like it is on fire and I sweat terribly. I have to lie down and I go to sleep immediately. When I am out somewhere I don't eat because I never know when this will happen. I've had tests for diabetes and they don't show anything. Could you possibly give me any clues to what this could be? Other than this I am in very good health.

Dear Reader — You have what doctors call the "dumping syndrome." It is a complication of your surgery. That does not mean the doctor did something wrong. About a third of people who have operations for ulcers have a dumping syndrome after surgery. Less than five percent of patients operated upon continue to have difficulties such as you experience. The others recover within a few months after surgery.

Apparently the mechanism is to empty (dump) the contents of the stomach too rapidly into the small intestine, before there is time to dilute the food with the acid digestive juice of the stomach.

Concentrated sweets such as sugar are the worst. These draw fluid into the intestine from your bloodstream in an effort to dilute the solution. This decreases the amount of fluid in your blood and decreases the volume of blood

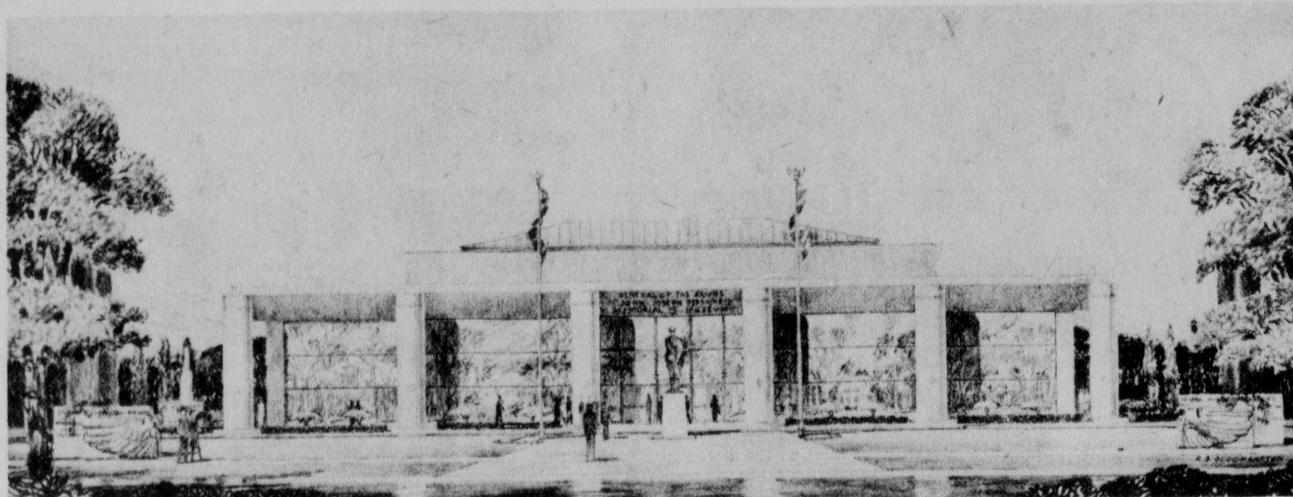

available for circulation. This and other hormonal responses stimulates your sympathetic nervous system.

The sympathetic response causes an outpouring of adrenaline, the fight or flight hormone. The heart rate may speed up, you may feel shaky and you will sweat. This is the typical adrenaline response that is also triggered with an attack of low blood sugar and also with attacks of anxiety. In some patients with your problem low blood sugar is a major factor in causing the symptom complex.

You can help manage your problem by following the program for low blood sugar (hypoglycemia).

The drowsiness is part of the picture and people with this difficulty often need to lie down after eating. It is important for you to limit your concentrated carbohydrate intake by avoiding sweets, sugar and starches and foods that contain them. You can eat leafy vegetables and bulky foods. Salads will help here. They are emptied more slowly.

You will need to eat more protein foods because these will not trigger these reactions and can be used for energy. Although there are few conditions where I recommend increasing the fat in the diet this is one place where it is helpful. You will need to use more fat for calories since you won't be using as much carbohydrate. Small frequent meals rather than large ones, avoiding liquids for an hour before and an hour after the meal and lying down after eating all help prevent this reaction. Avoid tobacco, alcohol and coffee. (NEA)

Monument to general

This is an artist's concept of the Pershing Memorial Museum to be built in Laclede, Mo., boyhood home of the only man to hold the nation's highest military rank (General of the Armies) during his lifetime. A \$3 million nation-wide campaign is now in progress to

finance construction of the facility, which will memorialize Gen. John J. Pershing and his companions of World War I. Preliminary work was done by Bloomgarten & Frohwark, architects, and Robert Stanton Everitt, consultant, both of Kansas City.

You and your income taxes

EDITOR'S NOTE: This is the third of a five-part series designed to help taxpayers prepare their 1976 income tax returns.

By EDMUND PINTO
Associated Press Writer

WASHINGTON (AP) — When it comes to income taxes, the amount of money you made during the year is not necessarily the amount on which you will have to pay taxes.

The government will allow you to reduce your total income by several adjustments, which are not to be confused with deductions.

All taxpayers are allowed either the standard deduction or itemized deductions. Adjustments to income are entirely different from these and will not apply to everyone.

There are six adjustments: moving expenses, employee business expenses, payments to an individual retirement account and to a Keogh Retirement plan, a forfeited interest penalty for premature withdrawal of funds from certain savings accounts, and a disability income exclusion.

The new law makes changes in five of the six. Only the forfeited interest penalty remains untouched.

This penalty is imposed by the savings institution and generally comes into play when individuals cash in long-term savings certificates before the date of maturity. If the penalty applies, it will be reported to you by the savings institution and you can deduct it from your income by putting down the amount on line 41 of the tax form.

There is a little more involved with the other adjustments. Take job-related moving expenses reported on form 3903. The new law provides added benefits to one class of taxpayers — military personnel.

Servicemen and women will be allowed to deduct out-of-pocket expenses even if they don't meet a requirement that they live at their new location for 39 weeks in the first 12 months after a service-connected move.

Civilian taxpayers must

meet that time requirement to be eligible for moving expenses. In addition everybody must meet a mileage requirement: Your new job must be at least 50 miles farther away from where you used to live, than where you used to live was to where you used to work.

For example, if your former job was five miles from where you used to live, your new job must be at least 55 miles away from that former home.

If you qualify you can subtract the cost of premove and temporary living expenses, and expenses related to the sale, purchase or rental of a new home; the cost of transporting your household goods and travel and lodging to your new location. If your employer pays all or part of your moving expenses you must report the amount he spouse who doesn't work.

The subtraction for employee business expenses has undergone a major change this year by all but doing away with a deduction for an office-in-home. Generally, all other qualified expenses not reimbursed by your employer can still be subtracted, but you

should have good records for the amounts you report on Form 2106.

As for office-in-home expenses, they are out unless you can show that the deductions are for a portion of the home used exclusively and on a regular basis for business, and for the convenience of your employer, not you.

For example, if you decide to set up an office at home because it is quieter there to go over some work than the busy company office, that's for your convenience, not your employer's.

If that employer does not have a company pension plan and you have set up your own Individual Retirement Account, you'll find this year you can put away more than last year's limit of \$1,500, if you set up a separate account for your spouse who doesn't work.

That's one of the major changes in pension plans this year and entitles you to pay up to \$875 in your account and \$875 in your spouse's account and then subtract \$1,750 from your income for the year.

If you are self-employed, you can't have an IRA, but you

Employees of Star asked their views

KANSAS CITY (AP) — Stockholders of the employee-owned Kansas City Star Co. have been asked to vote on an offer by Capital Cities Communications, Inc., of New York, to buy the newspaper company for \$125 million.

The Star's seven directors Tuesday unanimously approved a submission to the stockholders of Capital Cities' offer.

W.W. Baker, president of the Star, said the directors would also tender all their shares, totaling 11 per cent of the company's outstanding shares.

If owners of at least 75 per cent of each of the two classes of outstanding shares accept the offer, it would end the 50-year ownership of the Star by employees and former employees.

About 2,500 persons work for the Star Co., which publishes a morning, afternoon and Sunday newspaper in Kansas City. The company also owns the Flambeau Paper Co., Park Falls, Wis., and about 91 per cent of the Graham Paper Co. of St. Louis.

The existing management and staff of the newspaper will remain essentially the same and editorial policy will continue to be made in Kansas City if the offer is accepted, according to Thomas S. Murphy, board chairman to Capital Cities.

Capital Cities owns three newspaper companies which publish the Fort Worth (Tex.) Star-Telegram, the Oakland Free Press in Pontiac, Mich., and the Belleville (Ill.) News-Democrat.

The company owns radio or television stations in New York, California, Texas, Pennsylvania, Michigan, New Jersey, Rhode Island, Connecticut and North Carolina, as well as Fairchild Publications, which publishes Women's Wear Daily and other trade periodicals.

The offer for the Star amounts to \$139.54 a share, more than twice the current estimated book value of \$68.50 a share.

The Star's latest report filed with the Securities and Ex-

change Commission showed net earnings of \$4.3 million on revenues of \$135.4 million for the nine months ended Sept. 30. The net worth was \$55.8 million.

Capital Cities' last financial statement revealed net earnings of \$25.2 million revenues of \$153.9 million for the first nine months of 1976. As of Sept. 30 the company had a net worth of \$213.3 million.

Baker explained the directors' decision by saying the employee stock ownership program was becoming difficult to maintain and that substantial expenditures would be needed for future growth and prosperity.

"Capital Cities has the financial base to bring a measure of financial strength to the Star and greater borrowing capacity than the Star, if needed," he said. Baker said Capital Cities' offer was unsolicited.

Adjustments could reduce taxable income

still can take tax advantage of a so-called Keogh Retirement Plan that is designed for self-employed persons. It allows contributions based on a percentage of income of up to \$7,500 to be subtracted from income.

Finally, the last major change in the area of adjustments involves what used to be called the sick pay exclusion. This item has been replaced by a disability income exclusion that is more difficult for taxpayers to use.

Under the sick pay plan, certain taxpayers were allowed to subtract all or a portion of income received under a company wage continuation plan during a period of illness.

Under the disability exclusion, a taxpayer must be declared permanently disabled by either physical or mental impairment that is expected to result in death or last at least 12 consecutive months.

Only then will a subtraction of up to \$100 per week, \$5,200 for the year, be allowed from any wages received under a company sick-pay plan.

NEXT: Standard and itemized deductions.

Alone

Cecily Tyson, a one-time concert pianist, is heralded as one of the most promising actresses around. But she is a loner. Now working on a picture, she says she will withdraw from public view again when the film is finished. "I shall go alone somewhere to be close to myself. I shall find out what my soul is saying. Solitude is friendly to me." (UPI)

Killed in accident

ST. JOSEPH, Mo. (AP) — Police said a St. Joseph man was killed today when his car crashed into a warehouse where a city street dead ends. The victim was identified as John David Hand, 30. The accident occurred about 1:47 a.m. just south of the downtown area.

Eighteen persons have filed for positions on the Pettis County Extension Council and ballots have been mailed to eligible voters in the county.

All ballots must be returned to the Extension office at 1806 West 11th, postmarked no later than midnight Jan. 29. Persons who did not receive a ballot may obtain one at the

office, where votes may also be cast. The new council will begin its duties March 1. Six persons will be elected from the 18 running.

Persons seeking the six seats are Steve Demoss, Larry Smith, Jack Fowler, Carl Darby, Mrs. Raymond Brandt, Mrs. Dale Norfleet, Mrs. Dorothy Kitchen, Mrs.

Marcella Butler, Ralph Huff, Bob Woolery, Mrs. Bob Asbury and Mrs. John Tevis.

The council is composed of 18 members, with 13 of them elected and the rest appointed by Sedalia's mayor, the county court and each of the farm organizations with at least 25 members in the county.

**Extradition
papers filed
by Missouri**

The Sedalia Democrat, Wednesday, Jan. 19, 1977—11

PLATTE CITY, Mo. (AP) —

The Missouri governor's office has requested the extradition from Colorado of a man sought by Platte County authorities in the kidnaping, rape and sodomy in connection with an incident in which a woman said she was forced into a coffin-like box, beaten and sexually assaulted for two days last August.

Chatfield and James P. Parde, 29, are charged in Platte County with kidnaping, rape and sodomy in connection with an incident in which a woman said she was forced into a coffin-like box, beaten and sexually assaulted for two days last August.

Feel safe in resumption of flu plan

JEFFERSON CITY, Mo. (AP) — Missouri health officials believe it is a "safe presumption" that the Federal Center for Disease Control in Atlanta will accept its advisory committee recommendation to reinstate the swine flu immunization program on a limited basis.

Jerry Giffen, state health department spokeswoman, said the state office was notified Monday that the advisory committee's recommendation of last Friday had been passed on to the CDC and is being considered.

She quoted federal officials as saying "there's no new policy yet and we don't know when" there will be.

The Advisory Committee on Immunization Practices recommended on Friday that the immunization program be resumed nationwide for high-risk patients only.

Mrs. Giffen said the CDC has followed its advisory committee's recommendations in the past.

It would be up to individual doctors to decide whether to dispense the vaccine to other persons, Mrs. Giffen said. She also said no more mass inoculation clinics are planned for the state.

Fashions of the day

Masked against the bone-chilling Arctic blast that gripped much of the midwest, these two found a partial answer and wrapped their heads with a muffler or wore a ski mask as protection against the danger of frostbite. Temperatures in Chicago

rose from an early Monday low of minus 12 to an even zero at noon, the first time in 44 hours the temperature wasn't below the zero mark. Public utility companies asked for voluntary conservation of fuel and power to avert a possible crisis. (UPI)

End to control on tests requested

By ALTON BLAKESLEE
AP Science Editor

NEW YORK (AP) — The American Cancer Society is asking Congress to remove control over the testing of new anti-cancer drugs and combinations of drugs from the Food and Drug Administration and give the authority to the National Cancer Institute.

"It would seem that only legislation can tie down the point that cancer patients are different from others," the society says in a letter to Rep. Paul G. Rogers, chairman of the House subcommittee on health and environment.

The cancer society's action is the latest development in a growing controversy between some of the nation's leading cancer researchers and the FDA.

The researchers contend that the FDA is needlessly delaying the approval of drugs for clinical use in human patients by an overcautious concern about safety in the cancer patients.

The FDA counters that it is simply following laws and regulations designed to protect the rights of the patient.

"The cancer patient has the same right to protection as anyone else," says Dr.

William Gyarfas, director of the FDA's Division of Oncology and Radiopharmaceutical Drug Products in the Bureau of Drugs.

The cancer researchers take a different view.

"It is not bad to go to clinical trials early when life is ebbing away," says Dr. Vincent J. DeVita Jr., who is in charge of drug testing at NCI.

"The advanced cancer patients are simply a different population than normal people who might benefit from a new drug," Dr. DeVita says. "Ninety per cent of those with advanced metastatic (widely spread) cancer will be dead within a few months or a year. They should be given special consideration."

Prominent cancer researchers around the country interviewed by The Associated

Press agreed they would like to see the NCI take charge of development of experimental drugs in non-profit cancer centers.

They include Dr. R. Lee Clark, who is one of the three members of the President's Panel on Cancer, as well as president of the American Cancer Society and president of the University of Texas Cancer Research System.

This controversy, simmering for a year or more now, has come to a boil over proposed new FDA controls over combinations of drugs. This form of treatment involves the use of two or more drugs given together or in sequence.

This approach, combination chemotherapy, has produced good results in the treatment of leukemia and breast cancer. The separate drugshot

cancer cells at different stages of their development for a better total effect.

The FDA officials say that each drug has a toxic or undesirable side effect of its own, and they are worried that the combination may add up to more harm than expected from each drug alone.

Combinations, then, would have to be tested for a year or more in animals before being

tested in humans to look for toxicity.

"I have two of the most exciting research leads I've had in 25 years, and I can't begin work on them," says Dr. Emil Freireich of the M.D. Anderson Hospital in Houston.

The first shoe factory in the United States was opened by John Adams Dagyr in 1760 in Lynn, Mass.

Family trick

Twirling a rope just like his father did, Will Rogers Jr., tries to live out the legend created by his famed humorist dad. There's just one problem. "I could never do the things he did," Rogers said. "I couldn't stand up on

stage and tell jokes. I was very serious. People who really knew my father don't even think I look like him." Rogers is in Detroit on a promotion tour of for the Washington State apple industry. (UPI)

*Up, up and away*

Two men on a farmer's sleigh jump high as they approach the finish line during a traditional sled race opening the carnival season in Bad Toelz, West Germany, a Bavarian resort.

More than 150 farmers took part in this race on sleds originally used by farmers to transport goods.

(UPI)

Transmitters can save lives

LOS ANGELES (AP) — Katherine Held felt the chest pains and knew she was having a heart attack — she had already suffered four. She squeezed the pendant around her neck and within minutes, paramedics arrived at her home to give her emergency aid.

Mrs. Held, 64, now recovered, is one of more than a thousand persons who wear one-ounce transmitters, slightly larger than a pack of matches, around their necks or on their wrists.

The device, which leases for \$20 a month, allows a user to set off a series of prerecorded telephone messages to paramedics, neighbors or police by triggering a separate sending unit that is kept plugged into a standard telephone jack.

Heart patients, disabled or elderly persons, shopkeepers worried about robbers or anyone else who may need help in an emergency can use the Microlet Pendant Transmitter, made by Microlet Systems International of North Hollywood.

"It's saved my life more than once," said Mrs. Held. "I wouldn't be without the thing. All I have to do is push on that little button and I've got paramedics and everybody else here."

Tom Cataldo, the 51-year-old president of MSI, said he founded the firm three years ago after his mother suffered an attack and lay alone for several hours in her Boston home before help came.

"There is often no way to get help in these situations other than by having something on

your person," Cataldo said in an interview. "It just seemed like there ought to be a way for people in that situation to get help, so I decided to chuck it all and get involved in this. I had an engineering background and figured I could do something more useful with my life."

Today, Cataldo's firm has the potential to produce as many as 10,000 Microlets a month. The device can trigger its sending unit within a range of about 300 feet, setting off as many as 50 phone calls to preselected numbers, although Cataldo said five or six messages are normally sufficient.

The Dutch established their colony of New Amsterdam on Manhattan Island in 1625.

Purchase of natural gas is permitted

LOS ANGELES (AP) — Cities Service Gas Co. of Oklahoma City will be permitted to buy up to one billion cubic feet of natural gas from Southern California Gas Co. for customers in Kansas, Missouri, Texas, Oklahoma and Nebraska.

Southern California Gas said Tuesday it would relinquish slightly more than 3 percent of its natural gas allocation this winter to help users in cold-plagued, fuel-short states.

El Paso Natural Gas Co. will be allocated up to 1.5 billion cubic feet of natural gas by SoCal Gas for high-priority customers in New Mexico and Arizona.

Meter department's losses are reduced

A total of 1,775 parking meter tickets went unpaid in 1976, reflecting a total of \$1,700 in unpaid fines, according to city parking meter superintendent David Schick.

These unpaid fines reflects \$1,475 in unpaid \$1 fines, charged after offenders fail to pay the initial 25 cent fine within 24 hours, and \$225 in 75 cent fines created when a 25 cent fine is paid too late.

Overall, however, 97 per cent of the 59,500 tickets and fines issued in 1976 were collected, Schick said.

This compares favorably with 1975, when \$2,500 in fines went unpaid. That year, only 85 per cent of the fines were collected, which is 12 per cent below the collection rate of 1976.

Losses in 1976 totaled \$2,335.60, divided between the theft and vandalism of 32

meters, valued at \$2,261 and \$74.30 in damages to parking ticket collection boxes. However, Schick noted, the 32 meters were replaced with good used at a cost of only \$25 each for a total of \$800.

All revenue collected by the department is used to pay off bonds and department office expenses. Any surplus is given to the city street and alley department.

Of the 1,775 unpaid tickets, approximately 561 were issued to out-of-state drivers.

To collect unpaid tickets, the meter department sends two notices to violators shortly after each incident. If the tickets are not paid, warrants are issued by the department. After a warrant has been served, the violator is required to come to the police

department to post bond. The bond consists of a \$10 fee plus the amount of fines owed by the meter department. Violators then are given a date to appear in Municipal Court if they choose to contest the charge.

Otherwise, their bond is forfeited.

St. Patrick, the patron saint of Ireland, was born in what is now Scotland in 385 or 386.

Unwanted pregnancy as a new 'disease'

The very latest advanced thinking from the abortion lobby:

Government scientists have identified a new form of "veneral disease" — unwanted pregnancy. At a recent annual scientific meeting of the Association of Planned Parenthood Physicians in Miami Beach, the following line of reasoning was presented in a paper delivered by two physicians with the Department of Health, Education and Welfare and a scientist with the HEW Center for Disease Control:

Since unwanted pregnancy is "sexually transmitted" and is "social and emotional pathologic," it is hence a veneral disease. The best "curative" for this condition? Abortion.

Having classified unwanted pregnancy as a disease, the scientists went on to pronounce it "epidemic." But press on, the good doctors have reached other conclusions.

Since there is limited health insurance coverage for abortions, the classification of unwanted pregnancy as a disease has practical benefits as well, we are told. "If legal abortion were

viewed as a justifiable treatment for a sexually transmitted condition, it would not be considered an elective or preventive procedure which is usually ineligible for insurance programs," write the authors. "Rather it would be considered a curative treatment, making it eligible for remuneration from federal and private third party insurance grants."

And as long as we're talking about money, the authors point out that the "cost beneficial" of a first trimester abortion is three to five times greater than "the outcome of the non-treatment of unwanted pregnancies."

How did we arrive at the point where such horrifying ideas are proposed as if one were discussing a new treatment for athlete's foot? It all started four years ago this Saturday, when the Supreme Court flung wide the doors to the abortion clinics by deciding that the human fetus is a thing, not a person. Since then, the rest has been easy.

One parting thought: this line of thinking at HEW is, of course, subsidized by your tax dollars, as are many Planned Parenthood programs.

Tax break for elderly

Since the recent reevaluation program completion, I feel that there should be a real interest in one state program of which many taxpayers are unaware — namely the senior citizens property tax and rent credit — or Circuit Breaker law.

The Missouri General Assembly in 1973 enacted this law in order to allow counties and cities to maintain realistic values on property without putting undue pressures on our senior citizens with limited incomes.

To qualify, you or your spouse must be age 65 or older with income of less than \$7,500 for 1976, and a Missouri resident for the entire year of 1976.

You must complete Form SC and send it with copies of your paid 1976 county and city property tax bills, and your refund will be computed and a check sent you. The average refund-credit last year was \$125.

Renters (including nursing home residents) can also qualify, since under the law 20 per cent of the rent paid is considered property tax paid. A separate CRP statement must be completed and sent in with the SC statement.

Farmers can claim taxes paid on dwelling and surrounding land used for homestead purposes up to 5 acres, and we can compute that part of your farm value eligible for tax refund.

We have 500 forms available and can copy your tax receipts and assist in filling out the forms at the assessor's office. The Sedalia Chamber of Commerce also has forms available. The deadline for filing a claim is June 30, 1977, for a rebate on your 1976 taxes.

County Assessor Bill McCune

Public works not shovel-leaning

WASHINGTON — I listened to a radio commentary the other day in which one of my fellow journalists was railing against Jimmy Carter for allegedly giving too much emphasis to public works jobs programs.

He threw out all the old cliches about "make work," "leaf raking," "boondoggles," "colossal waste" and on and on.

It was an effective job of painting a picture of modern armies of Great Depression-type deadbeats leaning on shovels or picking up chewing gum wrappers.

But it was an unfair picture, and it was bad journalism. For the commentator obviously had not made the slightest inquiry as to how this country is spending the \$2 billion for public works projects that Congress recently allocated.

Here are some facts provided by the Economic Development Administration:

— 133 communities got \$97,691,176 for

public safety facilities, including police stations, fire stations, rescue stations, jails, prisons and other detention facilities;

— 268 communities got \$372,846,575 for schools;

— 473 jurisdictions got \$404,039,271 for water and sewer lines and systems, development of water sources, storm drains, etc. Most of these communities had absolutely no other way to raise money for such systems;

— 468 towns and cities got \$480,109,788 for courthouses, town halls, municipal office buildings, libraries, parking structures, community centers and other public buildings;

— 49 communities got \$62,365,658 to build hospitals, clinics, nursing homes and other health centers — generally to serve people who have had little or no access to decent health care.

Now by what logic does any neanderthal call this "make work"? Simply because these and other projects provided jobs for 300,000 of our tragic pool of 7.5 million Americans who are jobless?

It is this known demand — and need —

that causes the AFL-CIO, the National Urban League and even Mr. Carter's own secretary of labor-designate, F. Ray Marshall, to say that the Carter proposal for economic stimulus allocates too little to public service jobs and too much to tax cuts.

Marshall points out that \$5,000 in direct expenditures will produce a job, whereas it takes \$20,000 in tax cuts to put one person back to work.

This nation has never attempted anything quite like the recent allocation of \$2 billion for public works jobs. There were many imperfections in the allocation process as EDA tried, not with total success, to "take the pork out of porkbarrel," as one official put it.

But on the whole this experience showed that the public works approach is more effective, less wasteful and a faster-acting remedy than most Americans would have imagined.

So let's get on with adding another \$4 billion or more, now that we know how to distribute it in wiser and fairer ways.

SALT II: is a pact possible?

By RAY CROMLEY
NEA News Analyst

WASHINGTON — Some of the most knowledgeable technicians working on the Strategic Arms Limitation Talks (SALT) now believe a meaningful agreement between the Russians and ourselves is impossible.

It's impossible even if no one breaks the rules — which is unlikely, given the Russian record in such matters. And it's impossible even if the treaty is airtight — unlikely considering the imprecision of the English and Russian languages and the extreme complications of advanced technology.

No matter what limits the Soviet Union and the United States agree to, regardless of what weapon system improvements are banned, the range of possible intercontinental nuclear weaponry is so broad and the possible alternate ways of carrying out worldwide strikes so numerous that no treaty language could prevent or contain an arms race.

The truth of this thesis has been demonstrated in USSR and U.S. military developments since SALT I was signed. Neither country has been held back by the terms of the treaty.

Instead, both countries have pursued a variety of paths not covered or not adequately covered by the treaty but which could change the balance of power. Imaginative research on anti-ballistic missile systems. The cruise missile. Radically new radar. Advanced bombers. Satellite systems. Missiles with independently targeted warheads. An array of superior missiles.

Most importantly, there have been great strides in the accuracy of intercontinental missiles. Remember that a significant improvement in accuracy can do more for the offensive capability of a nation than adding sizable numbers of existing missiles. Accuracy, that is, is making ceilings obsolete.

Most certainly, restrictions on some of the new weapons or techniques could be included in a new pact. That would change nothing. Russian and American scientists would immediately turn their talents to major improvements in current weapons not covered by the treaty, or to new weapons that are today little more than gleams in the eyes of scientists in both countries. Laser technology, for one, is already more than a gleam, but too little advanced to control effectively.

Note in this regard that cruise missiles, the subject of hot discussion today between the Russians and ourselves, were considered too insignificant to cover at the time of SALT I and for a considerable time in the SALT II discussions.

Despite the above, I for one do not despair. While an effective treaty may be impossible, economic problems may eventually force the Russians to ease up on their military expansion.

For the Russian economy is not strong enough by itself to handle the growing costs of defense that her present programs will impose in the decade ahead.

Merry-go-round

The plot is thickening in JFK death probe

By JACK ANDERSON and LES WHITTEN

WASHINGTON — A mystery witness has sworn to congressional investigators that a CIA agent introduced him to Lee Harvey Oswald in Dallas three months before Oswald gunned down President John F. Kennedy.

The witness, whom we have agreed to identify only as Mr. X because of attempts on his life, is the founder of a Cuban terrorist group that worked closely with the CIA.

The group held secret meetings at 3126 Hollendale in Dallas before the assassination. Not long after Kennedy was shot, a Dallas deputy sheriff was told by an informant that Oswald had been associating with some Cubans at "3128 Harlendale."

Mr. X's dramatic testimony casts new light on the story Sylvia Odio, daughter of a wealthy opponent of Cuban Premier Fidel Castro, told to the FBI. Two months before the Kennedy killing, she related, she was visited in her Dallas apartment by three men who identified themselves as friends of her father.

One was introduced to her as "Leon Oswald." When she saw the picture in the newspapers of the man who had shot Kennedy, she fainted from shock. It was the same Oswald, she was certain, who had visited her apartment.

Congressional investigators have now

learned that the late J. Edgar Hoover deliberately misled the Warren Commission about Mrs. Odio's mysterious visitors. She was such a persuasive witness that the commission staff was preparing to investigate her story thoroughly.

Staff members even speculated, according to one internal memo, that the anti-Castro forces might have recruited Oswald, a known pro-Castro activist, to kill Kennedy.

"The motive on this," states the memo, "would of course be the expectation that after the President was killed, Oswald would be caught or at least his identity ascertained; the law enforcement authorities and the public would then blame the assassination on the Castro government; and the call for a forceful overthrow would be irresistible."

But Hoover abruptly blocked this line of inquiry by notifying the Warren Commission on Sept. 21, 1964, that the FBI had located and identified Mrs. Odio's callers. He named them as Loran Hall, Lawrence Howard and William Seymour, all anti-Castroites. Hoover even suggested that Mrs. Odio could have confused the names "Loran Hall" and "Leon Oswald."

Now the congressional investigators have uncovered evidence that all three denied visiting the Odio apartment and that the FBI had obtained their denials

before Hoover wrote his letter to the Warren Commission.

The investigators have also obtained the tape of a fascinating conversation, predicting two weeks in advance that Kennedy would be shot "from an office building with a high-powered rifle." The prediction was made by the late Joseph Milteer, a right-wing rabble rouser, who also happened to have close connections with anti-Castro leaders.

The conversation was taped on Nov. 9, 1963, in Miami by an FBI informant named Willie Somersett, who turned the tape over to the FBI the next day. Milteer is heard on the tape describing how Kennedy would die. Then the rabble rouser added knowingly that Kennedy "knows he is a marked man."

Milteer later admitted to the FBI that he had been in Dallas in June, 1963, but denied having any knowledge of the Kennedy assassination. However, the informant told the FBI that he asked Milteer after the shooting whether he had known about it in advance or had merely been guessing. "I don't do any guessing," replied Milteer.

Note in this regard that cruise missiles, the subject of hot discussion today between the Russians and ourselves, were considered too insignificant to cover at the time of SALT I and for a considerable time in the SALT II discussions.

12th inaugural for newsmen

LOS ANGELES (AP) — CBS' Walter Cronkite is covering his eighth presidential inauguration Thursday. But he's the new kid on that beat compared to an old friend — Robert Trout of ABC News.

Trout, 68, is working his 12th inauguration, doing it again on radio. The first time was in March 1933, when he reported on the inaugural parade that followed the swearing-in of President Franklin D. Roosevelt.

He worked for CBS then, told listeners what he saw from his chilly parade-route perch atop the old Willard Hotel in Washington, D.C. He might have done it from a

Navy blimp — a radio first — but had bad luck.

Trout, speaking by phone from Washington, said when he learned CBS planned to have someone report the 1933 parade from the blimp, he applied for the job. He got it. And quickly lost it.

Seems he admitted to the reporter, who began on what now is station WTOP in Washington. "I'd had more than a year of breaking-in, ad-libbing, announcing, and it wasn't all that different."

"I was kind of an ad-lib specialist who was sent out on all kinds of things, so I can't really say I was nervous about it. Of course, you always get a little adrenalin flowing."

Continous network TV coverage of Carter's inauguration and related events starts Thursday at 10 a.m. EST on CBS and NBC, a half-hour later on ABC. It'll end at 5 p.m. at CBS and NBC, at 4:30 p.m. on ABC.

At night, ABC will be on the air from 11:30 p.m. to one a.m. EST, with reports on six inaugurations in Washington.

Public TV's live coverage of the day's events will run 90 minutes, starting at 11:30 a.m. EST. A taped 90-minute show of the inaugural highlights will air that night at 9 p.m. EST.

Only player to enter shrine

Banks named to Hall of Fame

NEW YORK (AP) — Ernie Banks of the Chicago Cubs, one of baseball's top all-time sluggers, was named to the Hall of Fame today by the Baseball Writers Association of America in his first year of eligibility for the shrine in Cooperstown, N.Y.

Banks, a shortstop and first baseman for 19 seasons with the Cubs, was the only player in the writers' balloting to receive the 75 per cent required for election. He had 321

votes of the 383 cast by 10-year members of the BBWAA. The required number of votes for election was 288.

Eddie Mathews, former slugger for the Braves in Boston and Milwaukee, finished second in the balloting with 239 votes, 49 shy of election. Mathews and Banks each had 512 career home runs, tied for ninth place on the all-time list.

The late Gil Hodges of the Brooklyn and Los Angeles Dodgers and New York Mets was third with 224 votes,

followed by Enos Slaughter, who had 222. Slaughter played for several teams but is best known for his years with the St. Louis Cardinals.

Duke Snider, also of the Dodgers, was the only other player with more than 200 votes, receiving 212. The pitcher coming closest to election was the Dodgers' Don Drysdale, with 197 votes, sixth in the balloting.

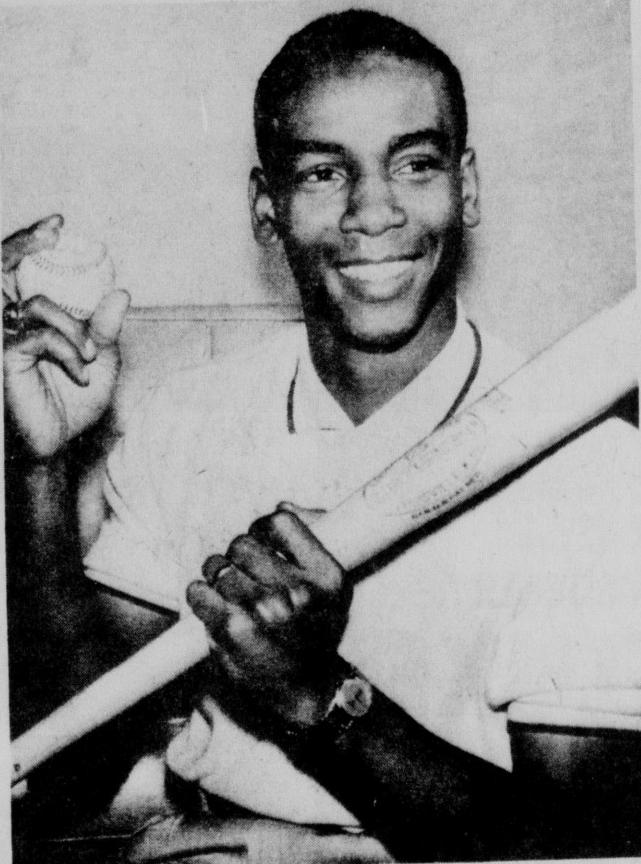

Banks became the eighth player in Hall of Fame history to be elected in his first year of eligibility. The only others earning that distinction were Ted Williams, Sandy Koufax, Mickey Mantle, Stan Musial, Warren Spahn, Bob Feller and Jackie Robinson.

In 2,528 games with the Cubs, Banks had a career batting average of .274 with 1,636 runs batted in. He hit 40 or more home runs in five different seasons and won consecutive National League Most Valuable Player awards in 1958 and 1959.

Banks is the 55th player selected by the writers into the Hall of Fame.

The announcement of Banks' selection was made jointly by Baseball Commissioner Bowie Kuhn and Earl Lawson of the Cincinnati Post, president of the BBWAA.

Mathews, who finished fifth in the balloting last year, also has impressive career statistics. Besides his 512 homers the third baseman drove in 1,453 runs and had a career batting average of .271.

Ernie Banks...joins select company

Stover whips Versailles, Laurie

By RON HIGGINS
Staff Sportswriter

VERSAILLES — The Stover Bulldogs moved a step closer to be ranked in the state 1-A ratings Tuesday night with an 80-77 double-overtime victory over the Versailles Tigers.

Junior Jim Garr sank a pair of free throws with :43 remaining in the second overtime to break a 75-75 tie and give the Bulldogs a two-point advantage. Seconds later, teammate Mike Ringen sank one of two free throw attempts and with only seven seconds left clinched the Stover win with two more clutch free throws.

"Yes, I felt the pressure a

little bit," Ringen said. "But on the last two there was more (pressure) than the first ones."

The Bulldogs' showing increased their winning streak to 11 and overall mark to 14-1. Tom Dale and Garr scored 24 points apiece for Stover, but no one could top Versailles' hot-shooting guard Barry Laurie. Laurie popped in 44 points to lead all scorers.

Laurie and company are currently ranked second in the state in 2-A ratings, but the loss to Stover could drop them down in the rankings. Stover was not ranked in the latest 1-A ratings.

Versailles' Greg Bacon sent the non-conference game into

the first overtime period with a tip-in at the buzzer after a long Laurie field goal attempt fell short. At the end of regulation play the score was locked at 65.

Laurie himself sent the game into the second overtime with a long-range shot with :12 remaining in the first extra stanza. His two-pointer knotched the score at 69.

Versailles climbed to a 10-5 advantage early in the first period, but the Bulldogs reeled off six unanswered points to take an 18-15 lead. At the close of the quarter Stover held a 23-17 cushion.

At one point in the second quarter, Stover utilized a 10-

point scoring surge enroute to a 41-29 halftime lead.

Laurie went to work in the third quarter, scoring 14 points and helping Versailles even the score at 51-all at the beginning of the fourth period.

The big difference in the outcome was rebounding. Stover mastered the boards throughout the game. "That was a big difference — the boards," said C. L. Brownsberger, Stover coach.

Brownsberger said his squad was up for the Tigers. "Versailles beat them pretty bad last year and the kids wanted this game," he said.

Stover plays host to Northwest Friday night in a Kaysinger Conference game.

At one point in the second quarter, Stover utilized a 10-

point scoring surge enroute to a 41-29 halftime lead.

Hal McRae

Paul Splittorff

Royals Caravan due in Sedalia on Monday

The Kansas City Royals Caravan, featuring pitcher Paul Splittorff and designated hitter-outfielder Hal McRae, will be in Sedalia Monday.

The two will appear at noon at the weekly Rotary Club meeting at the Ramada Inn and from 2 to 3 p.m. at an assembly at Sacred Heart School. The 1976 World Series film, "Red October," also will be shown at the assembly.

Splittorff, a seven-year veteran with the Royals, bounced back from a finger injury to pitch scoreless ball for five and two-thirds innings against New York in last fall's American League Championship Series to record the Royals' first playoff victory.

He holds the Royal team record for most victories, innings pitched, starts and shutouts.

McRae's .332 batting average was second in the American League last year to teammate George Brett's .333 mark and was the highest for a righthanded hitter in the loop in 17 seasons.

Over the past four seasons he has compiled a league-leading .313 lifetime average as a designated hitter and last year was selected as the designated hitter of the year in the AL for his .329 performance in that role.

KDRO sports announcer Jimmie Glenn, who will emcee the two appearances, said invitations to the Sacred Heart assembly have been extended to the baseball coaching staff and players of both Smith-Cotton High School and State Fair Community College.

Tiger wrestlers pummel Hickman

COLUMBIA — The Smith-Cotton wrestling team took a giant step toward winning the Central Missouri Conference title by thumping Columbia Hickman 41-12 here Tuesday night.

The victory was especially pleasing to S-C coach Keith Buescher, a graduate of Hickman High School. "I was real happy to go back and stick it to them," Buescher said. "They beat us my first two years here."

The Tigers took nine of the 12 matches (one by forfeit) to improve their overall dual mark to 5-1-2 and conference record to 1-0-1.

Vernon Shull, Jeff Shull and Eugene Sims got the Tigers off on the right foot. Vernon Shull decisioned his opponent 7-2 in the 98-pound class; Jeff Shull also won on a decision, 13-2 in the 105-pound class, and Sims posted a pin in the 112-pound class.

After Mark Judy of Hickman pinned S-C's Steve Loftus in the 119-pound class, S-C's Rocky Wooster upped his season record to 17-0 with a pin over Jeff Brown.

Hickman won the next two matches — Ted Kozinski decisioned Jim Holman 5-2 in the 132-pound class and Mark Crow of Hickman decisioned Dan Berry 7-1 in the 138-pound class. But after that, it was all Smith-Cotton.

Clifford Ives outbattled Mark Kozinski 8-6 in the 145-pound class; Jack Hawkins decisioned Ewing Ford 12-1 at 155 pounds; Doug Weikal decisioned Dave Winship 7-3 at 167 pounds; David Neth pinned Alan Isom at 185 pounds; and S-C heavyweight Richard Camirand won on a forfeit.

"You just can't say enough about the kids — with them being so young," said Buescher.

Vernon Shull, a sophomore, improved his record to 9-7-1 with Tuesday night's win. Sims, a sophomore, is 7-4, and Ives and Hawkins, two more sophomores, are 11-6 and 12-4 respectively.

"Any time a sophomore is over .500, it's tremendous," Buescher said.

Just as impressive, Buescher said, is Jeff Shull's 5-8 mark. He's only a freshman. Buescher also singled out Doug Weikal, senior, 10-5-2; Neth, junior, 12-5, and Wooster, a senior.

The Tigers can clinch at least a tie for the conference crown with a win at Hannibal Jan. 29. Hannibal recently defeated Hickman by only six points, 27-21, and that win came only after the teams were tied at 21 and Hickman forfeited its heavyweight match.

Smith-Cotton earlier this year tied with Jefferson City, the fourth team in the conference.

Hickman won the junior varsity match 50-19.

The Tigers return to action Monday in a dual meet at Chillicothe.

Jazz use smarts to get by Boston

By ALEX SACHARE
AP Sports Writer

"When you've been down as long as we have, you have to use your brains to get back," said Pete Maravich. "Tonight we began to do that."

The New Orleans Jazz used their brains, plus 44 points by Maravich and a solid rebounding effort led by Ron Behagen, in snapping a six-game losing streak, beating the Boston Celtics 99-89. It was the Jazz' first game back in the Louisiana Superdome following an eight-game road trip.

"We finally played smart basketball," said Jazz Coach Elgin Baylor. "We played

tough defense and good offense and I only wish we could play like that all the time."

Elsewhere in the National Basketball Association, the Los Angeles Lakers edged the Kansas City Kings 113-111, the Cleveland Cavaliers beat the Milwaukee Bucks 101-93, the Houston Rockets defeated the Chicago Bulls 103-85 and the Golden State Warriors trimmed the Denver Nuggets 107-101.

Maravich scored 17 points in the first quarter, staking the Jazz to a 30-25 lead and Boston never caught up. John Havlicek led the Celtics with 28 points. Center Dave Cowens continued his comeback with 10 points and 11 rebounds, again in a reserve role.

"We finally played smart basketball," said Jazz Coach Elgin Baylor. "We played

McGuire's 'stroll' irks Drake coach

By ALEX SACHARE
AP Sports Writer

Al McGuire went for a walk; Bob Ortegel thought he was guilty of trespassing.

There were three seconds showing on the clock at Drake's Veterans Fieldhouse, and McGuire's eighth-ranked Marquette basketball team was nursing a 62-60 lead, on Butch Lee's basket two seconds earlier. Drake had called a timeout, and during the stoppage, McGuire strolled onto the court and positioned his players defensively.

Ortegel, the Drake coach,

wanted the officials to call a technical foul on McGuire for going onto the court — but none was called.

Three seconds later, after Napoleon Gaither's shot at the buzzer had bounded off the rim, Marquette had its 13th victory against three losses — and Ortegel had a beef.

"I guess if you're Al McGuire you're allowed to do things like that," Ortegel said angrily. "Those officials are not men. It was absolutely gutless of them not to call a technical."

McGuire demurred.

"I've been in the business 25

years, and they don't call technicals for things like that," he said. But McGuire did concede, "We were very fortunate — in fact, lucky — to win."

Marquette was the only Top Ten team in action Tuesday night. Among the Second Ten, No. 15 Providence beat neighborhood rival Rhode Island 82-71 and No. 17 Arkansas defeated Southwestern Christian 62-45.

Lee led Marquette with 19 points, 15 in the second half, while Bo Ellis added 14, including two key baskets in the

closing minutes. Drake, 4-10, outscored Marquette 13-3 at the start of the second half and led by as many as nine points, but could not keep control.

Ken Harris and Gaither led Drake with 17 points each.

Providence fell behind 10-2 at the start but then got rolling against Rhode Island in raising its record to 10-2. Bruce Campbell led the Friars with 22 points.

Arkansas turned in what Coach Eddie Sutton called its "best defensive effort of the year" in lifting its record to 13-

1 over-all and 5-0 in the SWC. Sidney Moncrief scored 17 points and Ron Brewer 14 for the Razorbacks.

In other games, Toby Knight scored 18 points, grabbed a career-high 16 rebounds and blocked six shots, helping Notre Dame break a four-game losing streak with a 98-70 rout of Stonehill; Al Dutch scored 23 points and grabbed 11 rebounds, leading Georgetown, D.C., past Holy Cross 69-65; Tony Hanson's 26 points and 12 rebounds carried Connecticut over New Hampshire 76-56, and Bruce Grimm scored 25 points including four

in a 10-2 second-half burst that helped Furman defeat Jacksonville 75-65.

Also, Jeff Swanson's 23 points and 17 rebounds led Southern Methodist to a 75-71 overtime decision over Baylor; Creighton raised its record to 12-2, beating Centenary 84-62 behind Rick Apke's 19 points; Stan Mayhew set a Weber State scoring record with 45 points and hauled in 20 rebounds in an 89-76 triumph over Utah State, and Otis Birdsong scored a season-high 43 points, pacing Houston to a 95-81 victory over Texas.

Reds, Yanks in trouble due to free agent rule

By WILL GRIMSLEY
AP Special Correspondent

NEW YORK (AP) — All-star catcher Thurman Munson announces out of the blue that he may ask the New York Yankees to trade him. He wants what Reggie Jackson got — \$3 million for five years.

His battery mate, pitcher Ed Figueroa, is reported saying that he ought to get as much as Don Gullett, who was picked up for \$2 million.

In Cincinnati there are ominous rumblings in the Big Red Machine. Tony Perez, the team's RBI champ, is peddled off to Montreal. Catcher Johnny Bench warns that management can expect strong demands from players who carried the team to consecutive World Series championships.

Such reliables as Dave Concepcion, Rawley Eastwick, Ken Griffey and George Foster are threatening to play out their options. Pete Rose has given them a sharp dressing down.

The rattle of dollars in million-dollar stacks is creating obvious unrest in the camps of baseball's two most successful franchises, raising a series of foreboding questions:

Is the Big Red Machine, which had just laid the first stones of a baseball dynasty, facing piece-by-piece demolition?

Are the New York Yankees, who restored pride to the pin stripes, about to blow it all because of player greed and inherent jealousies?

Are the Reds and Yankees suffering the most damaging impact from the unique free agent re-entry draft which saw 15 top players go on the open market and sell their services for more than \$20 million?

Munson's comments at a sports dinner in Hamilton, Ontario, only added grist to the mill of discontent surfacing not only with the affluent Yankees but also in the highly disciplined and normally tightly knit camp of the champion Reds.

What Munson said was that owner George Steinbrenner

Sherk may have injured his knee

CLEVELAND (AP) — Cleveland Browns defensive tackle Jerry Sherk was to be examined today for a knee injury suffered in the closing moments of Monday night's National Football League Pro Bowl game at Seattle.

had promised him the kind of contract that the Yankees gave free agent Reggie Jackson. That's more than four times his present \$140,000 salary.

Figueroa, who makes about \$50,000 a year, figures he will be worth as much to the Yanks as Gullett, who gets \$2 million for five years. His battery mate, pitcher Ed Figueroa, is reported saying that he ought to get as much as Don Gullett, who was picked up for \$2 million.

Bench and Rose have taken conflicting viewpoints. Bench predicting a wave of free agencies, Rose arguing "players want too much." Their boss, Bob Howsam, has a dislike for long-term contracts.

Howsam is one of the front men in the conservative "hold the line" stances adopted also by Phil Wrigley of the Cubs, Walter O'Malley of the Dodgers, August Busch of the Cards and Don Grant of the Mets.

The Yankees' Steinbrenner is one of the "spenders," as are Gene Autry of the Angels, Ted Turner of the Braves, Brad Corbett of the Rangers and Ray Kroc of the Padres.

"The first draft was unique," says Jerry Kapstein, agent of baseball millionaires, "a dozen quality players, people willing to spend for them. Next time there may be more players, less quality, fewer big spenders. It will all level out."

Safety in bags

Like blinking an eye is one way to describe the speed at which air bags are inflated in an auto accident. Transportation Secretary William Coleman Jr., announced this week he has signed contracts with three auto companies to begin producing a test fleet of air bag-equipped cars in the

1980 and 1981 model years. General Motors, Ford and Mercedes-Benz will offer more than one-half million cars with safety air bags. In this slow motion demonstration of the GM system, one air bag emerges from the hub of the steering wheel and the other from beneath the instrument panel. (UPI)

Hard rock focuses on Mrs. Peron

NEW YORK (AP) — Would you listen to a rock opera about the life of Eva Peron? No, it's not a joke.

Eva Duarte Peron, second wife of Argentine dictator Juan Peron, may be an unlikely subject for the idiom that produced Elvis and the Beatles, but how would a rock

opera on the life of Christ strike you if you hadn't heard of "Jesus Christ Superstar"?

Well, the boys who brought you "Superstar" now bring you "Evita," a serious, entertaining, hard rock look at the woman who rose dramatically from less-than-respectable beginnings to the side of one of

South America's most domi-

nant figures.

"She's an extremely impressive person, a remarkable person," said Tim Rice, 32, who wrote the words for "Evita." "And that doesn't mean one admires her 100 per cent. I like to say most people are good and bad. She was

very good and very bad."

The rock opera was unveiled in album form here this week for the media and selected trendsetters, including Sylvia Miles and Prince Egon von Furstenburg. A head-start single of one of the opera's most stirring songs, "Don't Cry for Me, Argentina," already has sold a quarter-million copies in England.

The agreement followed tur- moin in the summer of 1975 after Russia began buying large amounts of U.S. grain, all of it from private companies. The current sales are also from private companies.

After it appeared that Russia might siphon off too much grain before U.S. harvest prospects were fully known and thereby cause American consumer food prices to rise, Ford ordered a halt to further sales and proceeded to work out a longer-term agreement.

Rice caught the idea for

"Evita" from a radio broad-

cast he heard in 1973, spent some time in Argentina "getting the facts and a feel for the country," then returned home to England to sell the idea to Andrew Lloyd Webber.

Rice got the facts — Eva

Peron's mundane back-

ground, her career in motion pictures and on the radio, her marriage to then-Col.

Juan D. Peron and the brief

decade she spent as one of the

world's most glamorous,

powerful and beloved women.

It ends with her death from

cancer in 1952 at 33.

"I was not trying to make a

political point," he said. "I

was concerned with what

made her tick. It wasn't going to be a deep, scholastic

study."

Webber, 29, and Rice spent

two years creating "Evita" from the sketchy biography.

"We were trying in a way,"

Rice said, "to get over in a

piece of music in 1976 the kind

of impact she had 25 or 30

years ago."

"Evita" from Webber and

Rice is a striking and not

always flattering portrait of a

woman of unflagging energy,

driven by a desire to improve

the lives of the masses and

revered as a saint by her

"shirtless ones." She was

hated by the army and Argent-

ina's aristocracy and, after

all, was the powerful wife of a

powerful dictator.

Teasdale, while not em-

powered to fire the commis-

sioners, reiterated throughout

his campaign that he would

ask for the resignations of four

of the five commissioners. The

PSC regulates state utilities.

Teasdale complained that the

commissioners were con-

trolled by "greedy utility

companies."

But since taking office last

week, the governor has not

met with the PSC. A check

with the commission Tuesday showed that no one from

the governor's office has

contacted the agency, al-

though Teasdale said last

week the commissioners

would be contacted then.

Teasdale said Tuesday he

would have someone in his of-

fice arrange private meetings

with each of the five in-

dividuals on the commission.

a result, the agreement was

"unnecessarily delayed."

Despite the snarls at the

time, the new grain agree-

ment "has helped remove a

source of public dissension"

over U.S. food supplies, the

committee said.

"Whether or not the agree-

ment eventually evens out

Soviet purchases as it is

designed to do, it has had the

short-term effect of calming

public fears about food short-

ages," the committee said.

In a report released

Tuesday, the department's so-

called Young Executives

Committee said the agree-

ment with Russia was "sizeable,

erratic Soviet grain pur-

chases" in the summer of

1975.

"The climate was right for

dominant personalities with

special interests to have a

disproportionate effect on the

decision," said the report. It

said some government of-

ficials who should have taken

part were not involved and, as

USDA's Soil Conservation

Service said that by Dec. 31

some 1,122,517 acres of land in

selected counties of 10 Great

Plains states were damaged

by wind, compared with

1,035,000 acres on Dec. 31,

1975.

At the time, USDA and

the Council of Economic Advisers

voiced concerns that such

sales might disrupt the U.S.

economy at a time when the

administration was trying to

curb inflation.

Costs may limit new fighters

ST. LOUIS (AP) — Defense Secretary Donald H. Rumsfeld says rising costs may result in a curtailment of production of the Air Force F-15 Eagle fighter in St. Louis, the *Globe-Democrat* reported.

The newspaper quotes Rumsfeld in today's editions as saying that manufacturing of the plane could end by fiscal 1981, "depending in part upon resolution of the existing cost growth problem."

Produced by St. Louis-based McDonnell Douglas Corp., the plane is considered the backbone of the aerospace firm's employment here.

Rumsfeld told the *Globe-Democrat* that a new estimate of the cost of the F-15 program during the last year has increased \$1.2 billion over original cost projections.

Although the Defense Department had originally planned to buy 749 of the planes, Rumsfeld said that the manufacture of 404 Eagle fighters is currently authorized.

The planes are being produced in St. Louis at a rate of nine per month.

Rumsfeld said that while the F-15 program has met major performance goals, the Pentagon has become increasingly concerned over its steadily rising costs.

"The Air Force is taking management actions to deal with the cost problem," Rumsfeld told the newspaper. "However, if F-15 costs continue to rise, the Defense Department will consider reducing procurement."

Rate hikes for 3 firms are suspended

JEFFERSON CITY, Mo. (AP) — The Missouri Public Service Commission has suspended proposed rate increases for three power companies pending investigation and public hearings on the requests.

Proposed rate hike schedules submitted by Arkansas-Missouri Power Company, its subsidiary Associated Natural Gas Company and the Kansas City Power & Light Company were stalled for four months to give the PSC time to review the requests.

KCP&L's rate increase would cause the average residential customer's monthly bill to jump by \$5.97 if approved, the company has told the commission. The hike would have taken effect on Feb. 1 if not suspended by the commission.

Kansas-Missouri's rate hike would increase the residential electric customer's bill by 15 percent, and would increase the customer's gas bill by 18 percent, the company says.

The Associated Natural Gas proposed rate hike would increase the price of gas by 9 percent for residential customers in the Sikeston district, 5 percent for those in the Kirksville district and about 20 percent for those in the Butler district.

Dates for hearings on the rate requests will be scheduled later by the commission.

Man fails in effort to flee blaze

KANSAS CITY (AP) — A man who apparently had tried to escape a fire in his basement apartment was found burned to death in the apartment Tuesday evening, police said.

Robert M. Shearer, 69, whose body was found about 6:30 p.m. at the base of stairs leading to his midtown apartment probably was overtaken by flames as he tried to flee, officials said.

"The body was totally engulfed in flames when we got there," said Battalion Chief Joseph Connors.

The fire had begun spreading up through a shaft in the center of the building and had mushroomed underneath the roof."

The fire in the 12-unit, three-story brick structure was extinguished about 15 minutes after firemen arrived. Estimated damage was \$50,000.

An investigation into the cause was pending, Connors said.

Industrial bond issue is approved

CABOOL, Mo. (AP) — Cabool voters approved a \$110,000 bond issue for industrial development by a 93 per cent margin Tuesday night. The issue needed a two-thirds majority for passage.

The referendum involved a 40-acre tract of land on the west side of the city to be used as an industrial development site. Federal funds for the project will amount to \$353,000, or 80 per cent of the total cost.

The estimated cost to Cabool citizens was \$4.75 a year.

The industrial package was made up of two issues. The first, concerning water and streets, received a 337-24 vote margin. The second, concerning sewers, was approved 333-28.

The FBI used fingerprints on file to identify 38,999 wanted fugitives in 1974.

Portable Concrete Mixer

Bid specifications and information are available at the Parks and Recreation Office, Convention Hall, Liberty Park, Sedalia, Mo.

Roscoe Righter
3x1-17.19, and 21.

NOTICE OF PUBLIC HEARING ON REZONING APPLICATION

Whereas, The City Planning and Zoning Commission and the City Council of Sedalia, Missouri have received application from Jessie F. Salmons, owner of the following described property:

Lot Seven (7), Eight (8), Nine (9), and Ten (10) in Block One (1) of Monteville, a right of way division, a subdivision of Part of Lot "A" of Ritter's Addition to the City of Sedalia, Missouri. (The southwest corner of 18th and Vermont Streets, extending south.)

requesting said real estate be changed and rezoned from R-1 to Zone C-0 and that said application be acted upon as provided in Ordinance No. 6741. Therefore, in compliance with Chapter 88 of the Revised Statutes of Missouri, 1969, other applicable statutes, and said Zoning Ordinance No. 6741; and said City Planning and Zoning Commission will meet in the Council Chambers, Municipal Building, 2nd & Osage Streets, Sedalia, Mo. at 7:30 P.M. on Thursday, February 3, 1977, for the purpose of a Public Hearing in relation to said application to change the zone and rezone said real estate, at which time and place, parties in interest and citizens shall have an opportunity to be heard.

Dated at Sedalia, Missouri, this 11th day of January, 1977.

THE CITY PLANNING AND ZONING COMMISSION
Of the City of Sedalia, Missouri
